enzie Easy Close ROOF SPACE LADDER

An **enzie** Easy Close ladder is mechanically counterbalanced by 2 Gas Pistons that allow the ladder to close itself with minimal effort. It is a ladder that can be custom made to suit your high ceiling or unusual applications. You won't have to bother with that shaky step ladder again when you transform your roof space into a convenient storage room. An **enzie** ladder is strong, durable and safe to use.

SAFE:

Two gas pistons close the hatch for you. All you need to do is start lifting the hatch and the pistons take care of the rest. The operation is smooth, quiet and effortless. The ladder can't fall down on top of you or crash back up into the ceiling. The 75mm non-slip treads are a comfortable 240mm apart.

ALMOST INVISIBLE:

Your ladder is completely self contained and simply folds away on its hatch. A slim-line architrave, concealed hinges and pre-painted hatch make your ladder blend in with the ceiling so that it almost disappears.

OPTIONAL CUSTOM OPENING:

Your ladder can be made to fit a custom sized opening.

EASY TO INSTALL:

Your ladder comes completely assembled. Spring installation clips make it easy to install. Once the opening is made, your ladder takes only minutes to install. Unique screw stops allow you to finely adjust the angle of your ladder so that it will fit perfectly.

Model No.	Ceiling Height	Opening Size.	Assembly	Weight	Package Size
EC 2700	<2700 mm	620 x 1200	Fully Assembled	25KG	600 x 450 x 1200 mm
EC 3000	2700 - 3000 mm	620 x 1450	Fully Assembled	30KG	600 x 450 x 1200 mm
EC 3200	3000 - 3200 mm	620 x 1450	Fully Assembled	30KG	600 x 450 x 1200 mm
EC 3400	3200 - 3400 mm	620 x 1450	Fully Assembled	35KG	600 x 450 x 1200 mm
EE 3600	3400 - 3600 mm	620 x 1450	Fully Assembled	42KG	600 x 450 x 1200 mm
EC 3800	3600 - 3800 mm	620 x 1450	Fully Assembled	45KG	600 x 450 x 1200 mm

enzie Easy Close ROOF SPACE LADDER

enzie Easy Close ROOF SPACE LADDER

Delivered fully assembled and ready to fit with detailed assembly instructions with pictures.
