

enzie custom ROOF SPACE LADDER

Here is a ladder that is custom made to suit your high ceiling or unusual applications. You won't have to bother with that shaky step ladder again when you transform your roof space into a convenient storage room. An **enzie** ladder is strong, durable and safe to use.

SAFE:

Plenty of toe room between the treads and the hatch make this one of the safest ladders. The 76 mm tread are a comfortable 250 mm apart

ALMOST INVISIBLE:

Your ladder is completely self contained and simply folds away on its hatch. A slim-line architrave, concealed hinges and paint ready finish make your ladder blend in with the ceiling so that it almost disappears.

OPTIONAL WIDE OPENING:

Your custom ladder comes with the option of an extra wide hatch. Your ladder can be made to fit onto a 770 mm opening or call us for other options

EASY TO INSTALL:

Your ladder comes completely assembled. Spring installation clips make it easy to install. Once the opening is made, your ladder takes only minutes to install. Unique screw stops allow you to finely adjust the angle of your ladder so that it will fit perfectly.

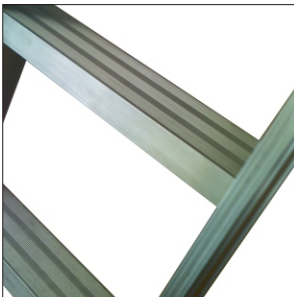

<i>Model No.</i>	<i>Ceiling Height</i>	<i>Opening Size.</i>	<i>Assembly</i>	<i>Weight</i>	<i>Package Size</i>
A2680	2600 - 2800 mm	570 x 1220	Fully Assembled	27KG	550 x 640 x 1550
A3020	3000 - 3200 mm	570 x 1520	Fully Assembled	30KG	550 x 640 x 1550
A3240	3200 - 3400 mm	570 x 1520	Fully Assembled	35KG	550 x 640 x 1550
